

INR 1000 Crore worth Skill Loans announced by SATYA Micro Capital Ltd.

SATYA Micro Capital Ltd., one of the leading RBI registered NBFC-MFIs, announced their collaboration with National Skill Development Corporation (NSDC) for providing financial support to the students enrolled with NSDC's network of training partners.

The collaboration has an objective to offer loans to students at attractive interest rates, in addition to improving productivity and creating sustainability in rural geographies.

Underprivileged students, who do not have access to such educational facilities, can avail this loan for skilling and upskilling through NSDC approved institutions. This initiative will also effectively contribute to the Indian Government's Skill India Mission as the skill loans target the skilling and upskilling of youth of the nation.

Sumul Dairy in Surat to expand ice cream manufacturing unit

Sumul dairy will establish an ice-cream and ice cream cone making plant at a cost of Rs 125 crore, which will be the first ice cream cone making plant in Gujarat.

State BJP president CR Patil performed foundation stone laying of the plant on 8th June at Navi Pardi plant of Sumul dairy. Sumul dairy will be the first institution to get the approval for the Product Link

Sumul dairy will produce 1 lakh litre ice cream and 3 lakh cones daily in the plant. The plant will have a capacity of producing 8 lakh cones per day Sumul dairy will be the first dairy to manufacture ice-cream cones among 27 dairies in the state Sumul dairy is also selected for making organic laboratory under the Pradhan Mantri Kisan Sampada Yojna of the Ministry of Food Processing. The dairy will get Rs 20 crore for the same.

Meghalaya Government Decides To Set Up Veterinary, Dairy & Fisheries Colleges

The Meghalaya Cabinet has decided to establish three new educational institutions across the northeastern state – a veterinary college, a dairy college and a fisheries college

The Veterinary & Dairy Colleges will be set-up in Ri-Bhoi District's Kyrdemkulai & Fisheries; while the Fisheries College will be established in Garo Hills District.

Meghalaya CM has been informed through his official Twitter handle. "Cabinet has decided to set up 3 Colleges in the State- Veterinary, Dairy & Fisheries Colleges. The Veterinary & Dairy Colleges will be set up in Kyrdemkulai, Ri Bhoi District & Fisheries in Garo Hills District." – he wrote.

Indian dairy major Amul ‘urges government to delay plastic straws ban’

Amul, India’s largest dairy business, has written to the country’s government urging it to delay a planned ban on small plastic straws, which is due to come into effect on 1 July. The letter sent by Amul managing director R.S. Sodhi to Prime Minister Narendra Modi’s office on 28 May, calling on the ban on straws packaged with small packs of juices and dairy products to be postponed for a year.

In its letter, signed by Managing Director R.S. Sodhi, said the straws help promote milk consumption, and called for the ban - part of Modi’s drive to stamp out polluting, single-use plastic - to be postponed for a year.

The letter said the move, if it were to proceed, would have a “negative impact” on farmers and milk consumption. A delay would “provide huge relief and benefit” to 100 million dairy farmers who “safeguard our food security in terms of milk and milk products”

The Indian government announced the initiative last year as part of its sustainability measures. Its Plastic Waste Management Amendment Rules, 2021 will prohibit specific single-use plastic items that have “low utility and high littering potential”. The manufacture, import, stocking, distribution, sale and use of such plastic will be banned from the start of next month.

700 MT dairy waste being dumped into Ludhiana’s Buddha Nullah per day

It has come to the fore that there are over 52,000 dairy animals in the Ludhiana city, generating over 850 metric tonnes (MT) of waste on a daily basis.

However, there is only one bio-gas plant whose capacity is 225 MT at the Haibowal dairy complex, which is also not operational at its full capacity. As per the officials, only around 125 MT cow dung reaches the plant per day.

This was revealed during a meeting conducted by MC commissioner Shena Aggarwal with officials of the animal husbandry department and Punjab Pollution Control Board (PPCB) on Thursday. It was held to plan the project to establish effluents treatment plants (ETP) and another biogas plant at Tajpur Road dairy complex.

After analysing data, officials suspect that around 700 MT cow dung/dairy waste is dumped into the Buddha Nullah per day. officials of the animal husbandry department stated that there are over 81,000 dairy animals at units situated in and around Ludhiana city. Out of these, over 52,000 are within MC limits, including those at Haibowal and Tajpur Road dairy complexes.

Animal husbandry startups Organics Private Limited offer hi-tech solutions to livestock sector

Run by mostly youngsters, this Startup has developed a series of farms and the necessary ecosystem that ensures that the milk drawn from the cows reaches the collection centre faster and without contamination. It sells natural A2 milk under the brand name 'DesiGo' in B2B and B2C domains.

The Startup Bhairaj Organics Private Limited keeps every single step under 24X7 surveillance so that the milk is tracked from the udder to the collection centre and hence is charged at a premium because of the confidence in quality.

Same confidence helped Bhairaj Organics Private Limited as it entered 'Start Up Grand Challenge 2021' announced by the Department of Animal Husbandry and were declared one of the 12 winners too.

"We have installed cameras everywhere. Each step is monitored carefully. That way, we have ensured not just quality but also can take care of any issue that can potentially disrupt the supply chain," Bhairaj's Mahaveer Singh told when he came to collect the award.

In Bolangir Orissa, Dairy is new mantra of self- reliance

Livelihood through dairy development has become the new mantra of self-reliance in Bolangir district of Orissa, known for its rampant migration and economic backwardness. Every year lakhs of labourers migrate to other states in search of works. The exploitation and torture of the labourers and the violation of their human rights often becomes the talking point in state and national level.

Among the measures, the implementation of the dairy development programme has started bearing fruits for the residents by making them self-reliant. The women cooperative milk union at Jambahal village under Patnagarh block in the district. The women members of the union are now supplementing their family income through dairy farming and have become self-reliant.

The dairy development scheme being implemented in Bolangir district has turned out to be the leading livelihood based programme in the state. To bring them under dairy farming and provide them a regular source of income, the district administration has formed several women-centric dairy cooperatives under Bolangir-Kalahandi-Nuapada Regional Cooperative Milk Producer Union (BKNCMU) of Omfed. Milk production has become a profitable venture for the residents after the formation of BKNCMU.

Dairy companies to hike prices further in first half of FY23

Milk prices will continue to remain elevated as dairy companies may hike prices further in the first half of the current financial year on account of higher prices of global skimmed milk powder as well as cattle feed.

All the dairy companies under our coverage have taken some price hikes – 5% to 8%; but rising milk procurement prices remain a key concern. All dairy companies to take further price hikes in H1FY23E," in dairy sector.

Higher demand for milk led by increasing out-of-home consumption as well as the opening up of channels such as hotels and restaurants have pushed up milk procurement prices, the analysts said. Increase in cattle feed prices and the heatwave have also adversely impacted milk procurement prices.

As a result, wholesale milk prices continue to increase sequentially as well as year-on-year. For instance, wholesale milk prices increased 5.8% year-on-year pan-India in June. Milk prices in South India are up 3.4% y-o-y. Households are facing high inflation on account of higher prices of everyday goods. Companies too continue to face raw material inflation.
